

Something went wrong. Now you need to be **ready**.

A payment dispute. An undelivered order. A contract that wasn't honoured. Most people don't know where to start — and most disputes go unresolved because they never get organised. NyayOS gives you the organised starting point that everything else depends on.

HOW IT WORKS — 5 STEPS

1**Tell your story**

In your own words. No legal terms needed.

2**Add your documents**

Contracts, invoices, messages, photos.

3**Confirm the facts**

Review what was found. You decide what's correct.

4**See your options**

Negotiation, mediation, tribunal, court — explained plainly.

5**Share when ready**

Give a lawyer or advisor access. You control it.
