

## Your clients can arrive better prepared.

NyayOS helps clients organise their dispute before the first consultation — so you spend less time reconstructing the situation and more time on the law.

### WHAT A CLIENT BRINGS FROM NYAYOS

#### Confirmed timeline

Date-by-date events, with certainty levels shown per entry.

#### Organised evidence

Documents categorised and linked to specific facts.

#### Flagged contradictions

Conflicts between sources, annotated by the client.

#### Missing evidence noted

What they couldn't locate, with their explanation.

#### How sharing works

The client grants you secure, time-limited access to their structured dispute file. You receive facts with sources, evidence, and a timeline — not a verbal account. Access expires automatically. The client can revoke it at any time.

### ASSURANCES FOR LEGAL PROFESSIONALS

- ✓ NyayOS does not give legal advice or make legal determinations
- ✓ Issue classification is provisional — client-confirmed only
- ✓ AI extractions are always labelled and require client confirmation
- ✓ NyayOS does not create attorney-client privilege
- ✓ No data is shared with any third party without explicit client consent
- ✓ Clients can correct or delete any information at any time
